

Plenary Session 3: Future Proofing the RSPO - The State of Palm Oil in 2050

**SCALING UP THE SUSTAINABLE PALM OIL
VALUE CHAIN THROUGH COLLECTIVE ACTION**

About the Speaker: Olivier Tichit

- **Director of Sustainability of Musim Mas Group**, a major integrated palm oil company.
- Oversees the implementation and execution of **Musim Mas' Sustainability plan**. His role includes **reviewing the Group's sustainability policy and strategy**, as well as working with the Group's key customers to **identify synergies for enhancing palm oil's sustainability proposition in the world commodity sector**.
- Serves as alternate member of the Board of Governors, and as co-chair of the Standing Committee for Standards. He is a **member of the High Carbon Stock Approach Executive Committee**, where he serves as Treasurer. He is also a member of the Board of the Indonesian Palm Oil Producers Association.
- A **tropical agronomist by training**, Olivier has **worked in South-East Asia for the past 20 years**. He was formerly the Commercial and Sustainability Director of the Indonesian subsidiaries of SIPEF, a Belgian plantations group.
- Before joining SIPEF, Olivier was the **Indonesia Country Manager** for a major commodities merchant group, **Ecom Agroindustrial**, and spearheaded sustainable certifications for coffee smallholders.

Data and the role of assurance in 2050

- What are the outside expectations of our assurance system by 2050 and how can RSPO meet those by sharing the relevant data without compromising privacy ?

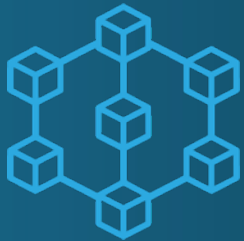

Data and the role of assurance in 2050

Data and the role of assurance in 2050

By 2050, overload of information availability & requests.

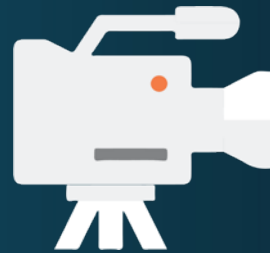

Possibilities being:

**Blockchains
are ubiquitous**

**Satellite
constellations**

**Smart
machines –
real time
recording**

**Seamless
connectivity**

**Automated
compliance**

Data and the role of assurance in 2050

Fundamentals & questions

**Garbage in
Garbage out**

**Right to privacy
/ consent**

**Government
Intervention**
